Thirty Survivors Have Been Taken from
the Reilly Coal Company Mine at Spangler, Pennsylvania—Abe Craig, 22 Years
Old Youth, is a Hero in the Tragedy

(By The Associated Press)
BULLETIN
SPANGLER, Nov. 6.—Between 50 and 60 miners were killed in the Reilly mine of the Reilly Coal Company near here this morning, according to an official estimate made public at midnight by rescue workers and company officials.

SPANGLER, Pa., Nov. 6.—More than 50 miners are believed to have lost their lives in an explosion in Reilly mine of the Reilly coal company near here this morning. Exploration of the workings by trained rescuers was being continued tonight. None of the dead had been brought to the surface at 10:30 o'clock.

Thirty blanching survivors from the Reilly coal company's mine—most of them young men, lay on a double row of cots in the miners' hospital here tonight anxiously watching the entrance to the big room. They were the known survivors of the 94 miners who went into the mine this morning a few minutes before a terrific explosion. Their vigil began when the first eight were brought to the hospital. The entrance of stretcher bearers meant that another comrade had been dragged from an underground sea of gas.

At 7:20 o'clock this morning the explosion occurred in the heart of the mine. As soon as miners from neighboring pits could reach the mine preliminary work of rescue began and it was supplemented later in the day by trained engineers from the United States Bureau of Mines in Pittsburgh and the rescue crews of neighborhood mines.

FINEST THEATER IN WORLD OPENED MONDAY EVENING

Keith's New Palace
Cost More Than
\$5,000,000

(By The Associated Press)
CLEVELAND, O., Nov. 6.—Pronounced by art and dramatic critics who are here to attend the premier performance to be the finest in the United States if not in the world, Keith's new palace theater in the new 22 story Keith office building constructed at a cost of more than \$5,000,000 was formally opened tonight with several hundred prominent persons and social leaders from New York, Cincinnati, Indianapolis, Louisville, Washington and other cities in attendance.

A special train carrying the New York representation arrived this morning. In the party number more than 200, were many New York and Boston society women, dramatic critics, newspapermen and theatrical magnates. Including those present of tonight's performance were the governors of eight states; E. F. Albee of Boston president of the B. F. Keith circuit of theaters; J. J. Murdoch, general manager and many other representatives of large theatrical holdings throughout the United States.

Mr. Albee declared the theater was built and dedicated by him to the memory of his life long friend and associate B. F. Keith. From the grand hall where are displayed rare paintings and antiques secured by Mr. Albee after two years search of European galleries and castles to the back stage where all the luxury and convenience of the modern club theater is accounted for by all critics to be the last word in theater construction and beauty.

Another Note Is Handed to Germany

(By The Associated Press)
BERLIN, Nov. 6.—The reparations commission today handed the German government another note impressing upon Germany the necessity of making more definite proposals for the stabilization of the mark and reminding the government of its engagements undertaken last July with regard to the regulation of Germany's finances.

The commission requested speedy reply to the note. Parliamentary and financial circles profess to see only hopeless confusion in the situation. They interpret the note as a polite reminder that the commission is completely out of sympathy with the manner in which Chancellor

OPPOSITE VIEWS ARE EXPRESSED ON SHOPMEN'S STRIKE

Are Presented Before
Judge Wilkerson in
Chicago Monday

(By The Associated Press)
CHICAGO, Nov. 6.—Opposite views on the present status of the shop crafts strike were presented today before Federal Judge Jas. H. Wilkerson, counsel for the shopmen contending that the strike no longer exists while assistant Solicitor General Blackburn Esterline, representing the government filed affidavits that the conditions complained of when the bill was filed still exist.

Further hearing of the case was continued until Wednesday when Attorney General Esterline will resume his argument and denial of the five points on which Donald R. Richberg, attorney for the shopmen, sought dismissal of the temporary restraining order. The points around which Attorney Richberg's argument centered were outlined by him as follows:

1. The present restraining order is advised to circumstances that are non-existent.
2. The order has an illegal extra-territorial effect.
3. The order now is unnecessary to protect property as federal injunctions to that end are in force in all federal districts.
4. No harm can be accomplished by dissolution of the present order as the bill will remain on file and the judge can re-open the case whenever conditions warrant such action.
5. That it is evident that in all probability no permanent injunction will be issued because of settlement of the subject matter complained of in the bill.

Because of the fact that a number of railroads (about 125) have signed agreements terminating the strike and that the settlement of the strike now is up to the chairman of system federation and not the national officials of the organization, Mr. Richberg argued "further continuance of the injunction is useless and discreditable to the administration of justice."

Equivoqually denying that acts of violence, intimidation and destruction of railroad property have ceased as claimed by counsel for the shopcrafts, Attorney Esterline, charged that numerous disorders during October and now are being reported almost daily. He placed in the record an affidavit signed by E. P. Bracken, vice-president of the Chicago, Burlington and Quincy which recited alleged acts of violence by strikers in October.

Additional affidavits placed in the record were made by present employees of the Missouri, Kansas and Texas; the Missouri Pacific and Kansas City Southern and the Rock Island.

Objections to these affidavits were made by Mr. Richberg, who attacked the credibility of the affidavits. Judge Wilkerson reserved his decision.

SOAP COMPANY RAISES WAGES

(By The Associated Press)
CINCINNATI, Ohio, Nov. 6.—An increase in the wages of employees of the Procter and Gamble company soap manufacturers in the four plants in the United States was announced today following a meeting between A. K. Schoepf, general superintendent of the company and the employees conference committee. The increase will amount to more than \$250,000. Upwards of 10,000 persons employed in the plants located at Ivorydale, near here, Porty Ivory, Staten Island, N. Y., Kansas City and Dallas, Tex., will be benefited by the increase.

The increase is based on the present yearly salary of each employee. In addition to boosting their wages, the award also will increase the profit-sharing dividends of those who are profit-sharers and dividends on common stock held by employees.

Illinois Legion In Eleventh Hour Appeal

(By The Associated Press)
BLOOMINGTON, Ill., Nov. 6.—"Not for Charity but in Justice," was the eleventh hour appeal sent from state headquarters of the American Legion here today, as the campaign for the Illinois Soldiers' Bonus, drew to a close. Tomorrow adjusted compensation for Illinois service men will either stand or fall by a vote of the people.

Countless meetings were held throughout the state today and tonight the last formal appeal to the voters was made in Bloomington where one of the biggest round-ups was held. Department Commander Charles W. Schick of the American Legion was the principal speaker.

"Daddy" Schick, as Legionnaires style their state commander has been taking a leading part in the campaigning. His sole concern, which has been imparted to thousands of other Illinois service men campaigners, was that the voters will get to the polls.

"Will Illinois fail to pay that debt of gratitude?" Commander Schick questioned. "There is no one who has felt the pulse of public sentiment, and who knows the character and manhood of the boys who fought, who will say or even think Illinois will not. There has been no organized opposition and no campaign speeches against endorsement of Illinois' adjusted compensation. All organizations are for it. No one is openly against it. How then can it fail?"

"What twenty states have already done," he added, "Illinois will not fail to do."

This persuasion is said to be general. In Springfield at the office of the adjutant general, the largest item of work at present is the checking of the blanks, made out by Illinois service men, in anticipation of the bonus payment.

Work getting the vote out, will take the place of other campaigning tomorrow. Throughout the state Legionnaires have been assigned to work in turn at voting places and in conveying voters to the polls.

Bankers Approve Statement.
Springfield, Ill., Nov. 6.—Oscar F. Carlstrom, member of the Illinois Tax Commission, announced today that the Illinois Bankers Association had approved his statement regarding the cost of the Illinois bonus. "It is a perfectly fair estimate," Mr. Carlstrom said, "that the annual cost would only be 10 cents on each \$100 assessed value, or 5 cents on each \$100 of full value, to carry the full compensation authorized by the proposed bonus act."

COURT OF APPEALS KNOCKS OUT LAW ON MINIMUM WAGE

Court is Divided on Question
Chief Justice Smyth
Dissenting
(By The Associated Press)
WASHINGTON, Nov. 6.—Declaring that the "modern tendency toward indiscriminate legislative and judicial jugglery" with Great fundamental questions of free government if persisted in, would lead ultimately to social disorder and revolution, the District of Columbia court of appeals today held unconstitutional the minimum wage law effective in the capital.

In holding the law invalid and the rehearsing what is regarded as likely to be precedent of far reaching importance the court of appeals reversed itself from a decision handed down in June, 1921.

The court divided two to one on the question. The dissenting opinion, given by Chief Justice Smyth, assailed the right of Associate Justices VanOrsdell and Pugh to hear the cases brought by a local hospital to enjoin the wage board from enforcing the law. The majority opinion denounced the minimum wage law which it declared would take from every American citizen the "most sacred safeguard of the constitution affords, the right to bargain and sell his labor for the highest wage his skill and efficiency affords."

MINOR OFFICIALS NAMED BY PREMIER

(By The Associated Press)
LONDON, Nov. 6.—Premier Bonar Law today announced the appointment of the remaining minor officials in his government. He has decided that his cabinet including himself, shall consist of sixteen members. This will be the smallest cabinet of recent years, except the war cabinet, which was a kind of inner cabinet.

The cabinet includes the minister of labor which is a plain indication that there is no intention to abolish the labor ministry. Herbert H. Asquith in a speech tonight took occasion to deny rumors of a possible new alliance between the Asquithian liberals and the conservatives in the event the conservatives fail to secure enough seats to command a majority in the new parliament. He described the idea of such an alliance as fantastic.

KEEL LAID FOR GIANT ZEPPELIN

(By The Associated Press)
FRIEDRICHSHAFEN, Germany, Nov. 6.—The keel has been laid for the giant Zeppelin to be built for the United States under the contract signed June 26. Some construction details are still awaiting decision following requests made by the commission of experts which the American government is understood to have assigned to supervisory duty.

The dirigible is expected to be completed not earlier than August 1923. After trial flights in Germany, delivery to America by air will be undertaken.

ALLEGED RADICALS IS CONVICTED

New York, Nov. 6.—Joseph Kowalski, alleged radical and secret agent of the soviet spy system "cheka" today was convicted by a jury on charges of aiding and abetting the entry to this country after he had been deported in March, 1921.

PREDICT GOOD WEATHER FOR ELECTION TODAY

Forecast is for Fair
Weather Except in
the Two Dakotas

(By The Associated Press)
CHICAGO, Nov. 6.—Weather conditions throughout the middle west and Mississippi valley—with the exception of the two Dakotas are reported tonight as favorable for tomorrow's election.

Rain on the prairies of the Dakotas and snow in the Black Hills have made roads in many sections virtually impassable and threaten to cut down the country vote. Republicans and Democrats in South Dakota both claim, as a result, they will have an advantage over the farmer members of the non-partisan league. The league candidate for governor is a woman, Miss Alice Lorraine Daly.

In Texas the supreme court by an eleventh hour decision today ordered the name of Earle B. Mayfield, the Democratic candidate for United States senator, printed on the ballots. The word was sent to all county clerks, but some doubt exists whether all can comply in time. Injunctions by Mayfield's political opponents had prevented the printing heretofore. The name of his Republican opponent, George Paddy, has been barred from the ballot because he was not nominated by a regular party convention.

In Ohio a vote buying scandal has broken, with the arrest of candidate for election of one of the four others, charged with attempting to buy the votes of absentee voters of Pike county.

Last minute meetings, speeches and the usual final hour claims of victory featured the closing campaigns throughout the middle western states. Most campaign managers made their final communiques so as to be worthless in determining what they actually believe.

Fair in Illinois.
Chicago, Nov. 6.—With a weather forecast of fair and probably colder for the greater part of the state, election eve indications in Illinois tonight are that an average off year vote will be cast tomorrow.

In Cook county, (Chicago) the campaign wound up with the usual red fire and sounding brass, but in the state as a whole, with state treasurer the highest officer to be elected, the enthusiasm has been noticeably absent. Republican leaders are watching the congressional battle in the 18th district where William P. Holiday, of Georgetown, is the party nominee to succeed "Uncle Joe" Cannon. Mr. Holiday won the nomination from a large field by seventeen votes, and there have been persistent reports that the result engendered considerable illfeeling. Andrew B. Dennis, of Danville, is the Democratic nominee.

GRADE CROSSING ACCIDENTS INCREASE

(By The Associated Press)
NEW YORK, Nov. 6.—Railroad crossing accidents during the four summer months of 1922 mounted to 4,411 in the period of the "careful crossing" campaign waged by the American Railway association that organization announced today. Although this represents an increase of 3.6 percent over the same period in 1921 the association claims the campaign actually saved many lives since 21 percent more automobiles were in operation than last year, and nearly 10 percent more railway cars were transported.

The report is based on the casualties recorded by 198 railroads covering 204,091 miles. It reveals that from June 30 to Sept. 30, 693 persons were killed in crossing accidents an increase of 24 over last year.

HOWARD JAYNE RETURNS TO MONMOUTH

(By The Associated Press)
Chicago, Nov. 6.—J. Howard Jayne will leave the hospital in Evanston tomorrow to return to his home in Monmouth, Ill., from which he disappeared two weeks ago.

The arrangements for the trip were made by his wife who directed the search for him and who has now engaged detectives to hunt evidence in support of her charge that he was the victim of a kidnapping plot. Mrs. Jayne said she had not obtained any further information on his movements during the two weeks as he is still in a dazed condition.

MYRON CORBRIDGE IS SENTENCED TO HANG AT PONTIAC DEC. 15

Lad Who Was Sent to Pontiac from This
City Will Pay the Death Penalty for Murder of Guard—Is Not a Native of This
County but Was Born in Cass County

(By The Associated Press)
PONTIAC, Ill., Nov. 6.—Myron Corbridge of Jacksonville, Ill., recently found guilty of the murder of John S. Jones, an officer of the state reformatory here, today was sentenced by Judge S. R. Baker in circuit court to be hanged December 15.

The youth is alleged to have beaten Jones to death with a piece of gas pipe. A number of residents of Jacksonville have signed a petition seeking a commutation of the sentence by Governor Small, and the relatives also will appeal, it was said.

Corbridge is not a native of this county as it would seem from the above dispatch, but was born near Arenzville in Cass county. He was sent to St. Charles from that county when ten years of age. While he was there the family moved to Jacksonville. He is not in any way related to the Corbridge family that has been resident here for many years. A. L. Bowen of the State Journal recently wrote the following history of the Corbridge case.

Myron Corbridge has come to the end predicted for him by psychologists and by the course of his early years. At the age of twenty-two years he is to be hung in Livingston county for the brutal murder of Officer J. S. Jones of the Pontiac reformatory, June 15, of this year.

Corbridge is the type that baffles all courts and all experts in the handling of juvenile criminal problems. He is a defective but not feeble minded. He spent eight years in the St. Charles School for boys. He was only 10 when he was taken to that institution from Cass county. He escaped six times was paroled twice and in 1914 was recommitted to St. Charles from Morgan county. Three different superintendents, during this period, wrote that he was absolutely incorrigible and unfitted for release. He reached the fifth grade in school, and was examined frequently by psychologists who could only shake their heads in their doubts of his future.

How the state legislature took a hand. House resolution, number 64, was adopted in the closing session of June 1917. It cited that the boy, Myron Corbridge, had been refused readmission into St. Charles and that he had been given a light term in the Kane county jail on condition that he would leave the state on his discharge. The legislature directed the Department of Public Welfare to make a thorough investigation and report to the governor within thirty days.

The report of this inquiry is a lengthy document, including letters from the state's attorneys of two counties and the attorney who defended him in Kane county. He languished in jail for nine months and was then permitted to plead guilty to a minor offense, but he had not been ordered to leave the state and the St. Charles institution had not refused to accept him, though he had reached, in the meantime, the maximum age for boys in that place.

On leaving Kane county, he went to his home in Morgan county. There he was quickly taken up for horse stealing and sentenced to Chester prison, December 19, 1917. On September 23, 1918, he was transferred to Pontiac, and on September 26, 1921, was paroled to a citizen of Pontiac. He violated his parole very promptly and was returned to Pontiac, Feb. 16, 1922. On June 15, of this year, he struck Officer Jones with a gas pipe and then clubbed him to death.

All the way thru his career, the investigation shows, that in (Continued on Page 4)

WASHINGTON, Nov. 6.—Suggestions for settling the question the allied war time indebtedness to the United States have been pouring into the treasury since President Harding recently expressed a willingness to award a prize for any practical concrete suggestion for its collection.

The president it was explained at the white house at the time, considered interesting suggestions by numerous individuals that the debt should be collected but he had found a unanimous disinclination to make concrete proposals as to how collections was to be accomplished.

Evidently it was said by high officials at the treasury today, many persons had taken the reported offer of a prize by the presidential literally and daily suggestions as to how the various foreign debts might be liquidated are reaching the treasury.

According to high officials, none of the debt liquidation suggestions reached have offered anything of a constructive nature for the solution of the problem. The foreign debt funding commission it was said is making a study of the economic conditions with the various foreign debtor nations in the light of their ability to meet their wartime obligations to this country. As a result of this study, it was indicated, the commission would be in a position to know just what might be expected from each debtor nation and determine its policy with respect to pressing for payment or waiting for the development of better circumstances as the individual cases might warrant.

High treasury officials declared, no consideration has been given to the suggestion from abroad that the United States be represented at the proposed Brussels conference to consider economic questions and interrelated indebtedness.

Mrs. Anna F. Rambon of Franklin was a Monday shopper on the square.

BERTON BRALEY'S DAILY POEM
Topics
By Berton Braley
LET'S talk of cabbages and kings,
Or snails or sealing-wax or shoes,
Or politics or motor-springs,
Or almost anything you choose;
Come on, speak up—knock or enthuse
On Mutt and Jeff, Rembrandt or Titian,
The Turkish Mess, the football news;
But let's not talk of Prohibition.
THE world is full of many things,
Of books and papers to peruse,
Of soap, cigars and wedding rings,
Of strikes and fights men win or lose;
Then wherefore should we speak of booze?
It bores me unto inaction.
Discuss it? No sir! I refuse.
So let's not talk of Prohibition.
IT is a subject some one brings
Into each group and then pursues
Until I simply long for wings.
Which I in flight may swiftly use;
I get the willies and the blues
And quite without my own volition,
I sigh "Out on these would-be stew!"
Please let's NOT talk of Prohibition!
ENVOY
DON'T talk to me of "Stills" and "Brews,"
For, frankly I state my position,
Unless my friendship you would lose,
Don't talk to me of Prohibition!

MIND AND SOUL
A discussion of this subject as to what the mind and soul are and their functions was very capably given in the Allen C. E. League of Bethel A. M. E. church on Sunday, Nov. 5.
The variety of opinions advanced by the different theorists make it difficult to form a positive opinion. Roy Ross opened the subject stating his belief that the mind and soul are one and the same.
Miss Corinne Robinson gave a very interesting and lengthy discussion showing her inclination to the doctrine of trichotomy. The body does the will of the mind and soul. The Bible is like unto our government constitution, the Bible being a higher standard of laws which appeal to the ethical and conscientious side of us. It is the soul which says no to something we contemplate doing that is not right and the mind says yes, the conqueror depends on the strength of the soul over the mind or vice versa. There is a subjective brain in the back of the head which obeys and the objective in front which commands. The question arises, is there a mind in the body? Else why does the chicken flap after its head is severed from its body. You may answer it is the result of contracted nerves but as all nerves lead to the head, that is doubtful. Relieve a chicken of its head with you not also relieve it of all sense of pain or will to act if mind is only in the head.
The mind and soul may make a striking personality if we beatify them or one of them. The effect of environment or heredity has a great influence on the development of mind and soul and sociologists differ as to the one which has the greater influence.
Rev. Hackley also believes in trichotomy and corroborated many of Miss Robinson's statements and emphasized the fact that the mind and brain are two separate parts.
Others discussing their point of view making the meeting very interesting.
Louise Bell, President.
Missouri Harrison, Secretary.

GRANVILLE CONCERT IS WELL RECEIVED
Annual Woman's Club Recital Pleases Audience Filling High School Auditorium.
Before an audience which filled the Jacksonville High school auditorium, Charles Norman Granville, baritone, with Miss Louise Mason at the piano, gave a program Monday night pleasing in variety, interesting in interpretation and unusual in its choice of numbers. Many of the numbers were new, or at least of only a few years standing upon recital programs, and all were in English.
Mr. Granville's voice is very close to being a lyric tenor, and he was at his best in numbers which allowed him to do a high G, and in The Eagle, whose range carried him to an A.
Miss Mason's accompaniments were unobtrusively fitting, and her solo numbers added to the variety and pleasure of the evening.
The program follows:
Four songs from Shakespeare's plays:
I music be the food of love, "Twelfth Night," John Charles Clifton.
It was a lover and his lass, "As You Like It," Thomas Morley.
The Willow song, from "Lute Book," James Dallis.
Autolyus song, "A Winter's Tale," James Greenhill.
Five Russian songs:
Night, Sergei Rachmaninoff.

MEETING OF MINISTERS YESTERDAY MORNING
Mohammedan World Discussed by Rev. J. P. Langton—Program for Coming Year Announced.
The regular meeting of the local Ministerial association was held Monday morning, with Rev. J. P. Langton as the leader. The subject for discussion was "The Mohammedan World Today," and Rev. Mr. Langton handled the subject in a very interesting way. He declared that much of the misfortune that has come upon the Armenians is brought upon them by themselves.
Rev. Mr. Langton said that two things were evident with regard to the Armenians, and these were: first, that they were the greatest bankers and traders of the Orient, and secondly, that they were the greatest prevaricators and graters of the Orient. It was the statement of Rev. Mr. Langton that four Near East relief organizations are sending money to assist the Armenians, whom he declared as unworthy of support.
Rev. M. L. Pontius, as chairman of the program committee, announced the following program for the year:

Vasconcellos for County Superintendent
In some offices an official can become acquainted with his duties in a few weeks. In others, where routine is not pronounced, a longer time is required to become familiar with the work. The office of county superintendent of schools comes under the latter class. To serve best, the head of the school system must have high qualifications and experience.
Herbert H. Vasconcellos, the present incumbent, meets the qualifications of the office. He possesses a Supervisor's certificate, has the required preparation and training, and in every way meets the requirements for an effective administration of school affairs.
The law makes the county superintendent the interpreter of the school law for all school officers and interested parties. Mr. Vasconcellos has made the study of school law a specialty and is well versed in this line.
Morgan county schools were never in a more flourishing condition, not only on the educational side, but on the physical side as well. More than half the rural schools meet the "Standard School" requirements, and there is not a single school that does not meet the requirements in most respects. Morgan county has one of the 38 rural Superior Schools in the state.
The standard of the teaching force is much higher than formerly. The average teacher is far above the minimum requirements set by the State Examining Board of the Department of Education.
In the election of a superintendent of schools, the business side of the office should also be considered. Such a position requires a person of business ability and mature judgment.
A vote for Mr. Vasconcellos is a vote to continue the educational affairs of this county in the hands of a thoroughly experienced and capable man.

NERO
The Grandiose Spectacle of Ancient Rome
A faithful depiction of scenes enacted during the rule of the world's wickedest man and woman, by the world's greatest actors
Time of Shows--1, 3:30, 6:00 and 8:30 p.m.
The wildest imagination can scarcely conjure up all of the fabulous and extravagant excesses of the reign of the tyrant Nero, Emperor of Rome. He did things never heard of before and no tyrant following him since has dared attempt. Every notorious excess is faithfully reproduced on the screen in all its gorgeous and brilliant settings of that time. You will see Rome as it was in the time of Nero, a replica of his Golden House, the "Domus Aurea," on Palatine Hill, where his devilish orgies were held. Recent excavations have uncovered a large portion of this wonderful house and these were filmed and will be shown. The principal scenes of this picture were taken in Italy in and about Rome in the actual localities of the story and the cast of players includes more than thirty of the world's greatest actors, headed by Jacques Gretilat, as Nero and Violet Mersereau as Marcia, with Jaulette Duval as Poppaea and Edy Darceia as Acte. The responsibility and conception of the picture rests with Americans, but the cast is headed by Europeans and Americans, with more persons involved and appearing in the scenes than in any other ever filmed. A squadron of cavalry was assigned by the Italian government to preserve order during the filming of the great scenes.

Instant Quaker Oats

Cooks to perfection in 3 to 5 minutes

Now our experts have perfected a quick-cooking Quaker Oats—the quickest-cooking oats in the world.

It cooks in 3 to 5 minutes. It is the quickest-cooking oats in the world.

The same super-quality, the same exquisite flavor. All Quaker Oats are flaked from queen grains only.

But for Instant Quaker the oats are cut before flaking. They are rolled very thin and partly cooked. So the flakes are smaller and thinner—that is all. And those small thin flakes cook quickly.

Grocers now have both styles. But Instant Quaker is marked Instant on the label. Get that if you want quick cooking. No other oats on the market cook nearly so quickly as these.

New Novels at the Library

Farnol, Jeffery. "Peregrine's Progress." This is the story of Peregrine Vereker, who in the eyes of his aunt Julia, who brought him up to the mature age of nineteen, was a polished young gentleman, an incipient artist and poet. In the opinion of his two uncles he was an ignorant mollycoddle, a lady-like nincompoop, unacquainted with manliness. Stung by their scorn, Peregrine ran away, as many a lad before and since, to learn the world and prove his real worth, and ran the gamut of happiness and misery, of fear and courage, of loneliness and love before he matched up to the requirements of his two uncles. In this novel the author has his characters live in the early nineteenth century, and Peregrine in his "progress", meets with much the same gentry, as peopled the England of the book, "Broad Highway." Several characters in that delightful romance have an active hand in Peregrine's education, particularly the Tinker, that master of wholesome philosophy. No present day writer knows better than Mr. Farnol how to depict the lure of the out-doors, the charm of the English

country and the life of this particular period. This is another dashing tale, full of action and adventure and love, crowded with tense moments, with gypsies, rogues, men of fashion, lovely ladies, and ladies not so lovely, the life of country, the life of fashion; all are combined in this new creation of Mr. Farnol's brilliant and teeming imagination, which is very worthy to take its stand in the company of the author's previous works. Get it at the public library.

Snailth, J. C. "The Van Room." This is the story of a curious and interesting group of characters, seen in a situation that dramatically reveals the traits of human nature. A painting by an old master is discovered, the "Van Room," and the novel deals with the struggle which arises from its possession. To certain of the characters the painting comes as a revelation of beauty; to others it represents only a vast sum of money as its worth. As skilled hands uncover the masterpiece from under the grime and defacements of years, so are disclosed by Mr. Snailth's vivid art, the passionate greed or the worship of the beautiful in the hearts of his characters. About the little antique shop of S. Gedge, that entertaining old fellow, beat the guests of desires of those seeking possession of the painting. There is young William, assistant to Gedge, and the girl June, whose interest in the Van Room is fired by her devotion to its rightful owner, young William. Many vivid human beings are seen on the scene of the painting. This is a splendid story well worth reading, written with great skill. Get it at the public library.

Chicago Woman is Elated Over the Result

"What Tanlac has done for me is so wonderful for words to express," recently said Mrs. Stella, 2931 Canal St., Chicago, Ill. "Before I took Tanlac I was actually so run down that I was almost in despair. If I ventured to eat a regular meal I would nearly go wild with indigestion, and times I was troubled so with headache and dizziness I could hardly stand up. Sometimes I ached from head to foot and my nerves robbed me of hours of sleep every night. But now I enjoy three hearty meals a day, work from morning till night without tiring, and feel so fine that I just praise Tanlac all the time. I have gained ten pounds and am as healthy and active as a person could wish to be."

CLOSE CONTESTS ARE FORECAST IN EASTERN STATES

Both Sides Are Confident
and Are Predicting
Victory

(By The Associated Press)
NEW YORK, Nov. 6.—Close contests were indicated tonight in several of the senatorial, congressional and state elections in eastern states tomorrow notwithstanding confident claims of victory in both the Republican and Democrat camps. In the senatorial fights, interest was centered on the lively campaign in Massachusetts, New Jersey, New York, Connecticut, Rhode Island and Maryland.

The fight in the Bay State has attracted widespread interest because the veteran senator H. C. Lodge, the Republican leader in the senate is a candidate for re-election. His Democratic opponent is William A. Gaston, a Boston banker.

The contest in New Jersey, where Senator Joseph Frelinghuysen is a candidate for re-election against Governor Edward I. Edwards has been enlivened because of the wet and dry issue.

the governor favoring the wets. Senator William C. Calder of New York has had thru a spirited campaign with Royal S. Copeland, health commissioner of New York with the tariff as the leading issue.

In Connecticut, George P. McLean, Republican, has engaged in a strenuous tilt for re-election with Thomas J. Spelloey and in Rhode Island, Senator P. G. Gerry, Democrat, contested with Governor R. L. Beekman.

The seat of Senator Joseph L. France, Republican of Maryland has been sought by William C. Bruce in a vigorous campaign.

Pennsylvania will elect two senators, the Republican incumbents, George W. Pepper and David A. Reed being candidates for re-election. Mr. Pepper is filling the unexpired term of the late Boies Penrose and Mr. Reed is filling the unexpired term of the late Senator Crow.

Two gubernatorial campaigns in New York and Pennsylvania have attracted national interest. In the empire state governor Nathan L. Miller, Republican is a candidate for re-election his opponent being ex-Governor Alfred E. Smith. This campaign has almost eclipsed all other contests in the point of popular interest in the state.

In Pennsylvania, Gifford Pinchot, who focused attention by wrestling the Republican nomination from the regular organization is opposed by John A. McSparren, active in the Keystone state game.

Close contests were indicated in many of the congressional elections.

BETTER THAN CALOMEL
Thousands Have Discovered
Dr. Edwards' Olive Tablets
are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that tarry feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 15c and 30c

ARMISTICE DAY PROCLAMATION

Next Saturday, Nov. 11, is Armistice day and as mayor of this city it is proper that I call upon the people to join in special observance. Armistice day marked an epoch in the history of the world and appreciation and knowledge of its importance grows with each passing year.

In recognition of the sacrifices made by the millions who fought in the war, and that the solemn anniversary may be fittingly observed, I urge business men of the city to close their places of business during the hours from 12 o'clock noon until 4 p. m.

In this way it will be possible for a larger number of people to join in the observance of the day, in accordance with the program that the committee representing various organized groups has outlined.

E. E. CRABTREE, Mayor.

HELD G. O. P. MEETING AT ARMORY HALL

Big Gathering Monday Night Marked Close of Campaign—Dr. Kennibrew Presided and Spirited Addresses Were Made

The final Republican mass meeting of the campaign was held last night at Armory hall and it was one of the best meetings. While the general arrangements were in the hands of colored citizens, the gathering was for the public generally and hundreds attended. John R. Dunn called the meeting to order and introduced Dr. A. H. Kennibrew as chairman. Intermingled with the addresses came musical selections by the Mallory orchestra. This organization plays in fine form and added very materially to the interest and enthusiasm last night.

The first speaker was Mrs. Ila Emmott of Washington, D. C., representing the national woman's organization. Mrs. Emmott talked about national issues as well as local affairs. Mrs. Emmott is thoroughly posted on what is going on at Washington and spoke in interesting vein.

Rev. W. H. Snowden, State Auditor Andrew Russell and State's Attorney Carl E. Robinson were then heard in briefer addresses. They talked more particularly about Morgan county affairs, emphasizing the reasons why the county candidates should have the full support of the party at the election today.

The county candidates were also present and expressed their appreciation for the work which has already been done in their behalf and confidence that today will bring satisfactory results. Just before adjournment Miss Ara Mallory led the entire company in singing "My Old Kentucky Home."

PAVING WORK MOVES RAPIDLY ALONG

The concrete mixing plant of the Standard Paving Co. was moved to the corner of Sandy street and College avenue yesterday morning. The work of spreading concrete was resumed in the early afternoon beginning at West street. Such progress has been made that it is the expectation that all the foundation will be finished by tonight. In that event the plant will be moved to Court street where the one block between Fayette street and Church is to be paved.

The work of spreading the asphalt is under way and City Engineer Henderson said last night that it is the expectation that the asphalt will be spread as far as Park street by Saturday night. This will complete the distance from Webster avenue to Park street. At that rate of progress and unless prevented by very bad weather, December 1 will see the asphalt work completed on the College avenue job and on Court street.

Mrs. Fred Eilers was hostess to the ladies of the Monday Evening Club Monday night.

GOOD YEAR'S WORK IS AUGURED FOR SCHOOLS

Meeting of Board Shows Good Financial Condition and Excellent Special Equipment.

A financial situation which is better than average is shown by the report of the treasurer of the school board, read at the board meeting in the office of the superintendent of Jacksonville schools at the high school last night.

Discussion of the work of the Josephine Milligan school and of the department of printing brought out the board's policy on these important departments of school work.

The printing department was voted a sum of \$145, of which \$100 is promised to be repaid by the staff of the high school. Exhaust, to complete the equipment of this high school department for printing of the school paper at cost. Among many of the school jobs the press has printed, the "Sixth Period Knockout," as a preparation for the larger task of printing the Exhaust. Other jobs include blanks for the administration of the high school upon which the boys are encouraged to expend ingenuity in making suggestions. One blank devised by a student has saved the office considerable work.

The Josephine Milligan school was the object of some discussion as to policy, and it was decided to issue letters to parents and to doctors defining that policy and urging co-operation. Promise of co-operation with the school nurse on the part of the parent was decided upon as a condition of each child's entrance into this school, which will attempt to keep most of its members up with their classes while allowing them more rest, care, safeguard from infection than in the regular schools. Mrs. W. D. Roberts, a board member, stated her intention to put one of her children in the school and to urge all parents of all children who are not up to standard physically to do likewise.

Teachers to Attend Meeting. The board granted a holiday for the high school teachers' conference in Champaign, November 23-24 upon the suggestion of Superintendent Shaffer. Propositions for taking photographs of the various school classes were considered, and as the two submitted were both reasonable in the price to be asked of students who care to buy them the work was given to local applicant, Otto Splith.

Superintendent H. A. Perrin of the Joliet schools was present to help in making clear matters which came under his surveillance prior to his resignation here. Mutual words of appreciation were exchanged by the board. Mr. Perrin and Superintendent B. F. Shaffer, whose initial report and recommendation brought about the favorable vote on the actions mentioned above.

The financial report from June to October inclusive is briefly as follows:

General fund: Income \$22,188.49 Disbursements 19,660.35 Balance \$ 2,528.16 Bond retirement and interest fund: Income \$32,160.00 Disbursement 32,160.00 Building and repair: Income \$22,899.60 Disbursement 9,998.39 Balance \$13,501.21

Starting the school year with a balance, the board was more ready to support needed expenditures, though caution in keeping within the budget and the claims of due bills were not neglected.

Fifteen States Have Paid Their Ex-Service Men State Compensation!

Now it is up to you, Mr. and Mrs. Voter, to see that Our Boys of Illinois receive this compensation.

Vote "YES" Today

The Actual Annual Cost Will Be 1 Mill (1/1000) of Each \$1 Assessed Value

Total required for first year if full amount is issued—\$55,000,000. 13 cents on each \$100 of assessed valuation will raise \$5,461,000.

This would be 6 1/2 cents on each \$100 of full value of property returned in the state for taxation.

Full maximum will not be required and interest will reduce \$137,000 annually on account of the principal paid off annually. The above figures are on 5% interest also.

It is a perfectly fair estimate that annual cost will be only 10 cents on each \$100 assessed value, or 5 cents on each \$100 of full value, to carry full compensation authorized by the law of Illinois.

Shall the State of Illinois contract a debt of \$55,000,000 and issue bonds to that amount and levy annually a direct tax sufficient to pay the interest on such bonds as it shall accrue and to pay off and discharge the principal of such bonds within twenty years from issuance, in accordance with the provisions of an Act of the General Assembly of Illinois entitled "An Act to provide payment of compensation to certain persons who served with the military or naval forces of the United States in the recent war with Germany?" WHITE HALL SCHOOLS REOPENED MONDAY

Public School Sessions Resumed After Brief Suspension Because of Scarlet Fever Situation—Other White Hall News.

WHITE HALL, Nov. 6.—The White Hall public schools reopened today, having closed automatically at noon last Wednesday by the action of the state health authorities in taking cultures of the pupils and making up a report on the same as to the prevalence of diphtheria. The report came back at noon Friday, and showed that there were forty-six carriers of the disease, including six in the high school, and all other pupils were released from quarantine promptly. The method of coping with the situation has been most effective, and it is felt generally that it was the proper course to pursue, notwithstanding that it gave rise to exaggerated tales of the situation. The state health authorities were summoned by Mayor H. W. Roodhouse, and his action has resulted in bringing about better working understanding between the local health authorities and the medical fraternity, thus covering a breach that was at the bottom of the stir as regards the health situation. There will be a daily examination of the pupils for the present for the purpose of detecting the presence of scarlet fever. The school and health authorities at Roodhouse adopted

CHICHESTER'S PILLS

The November session of the 4-19 class of the First Baptist Sunday school was held with Mrs. F. N. Collins on Carrington street, and was opened with an original song to the tune of "Maryland," written by Miss Emma Duncan. It was voted to forward a barrel of clothing to the destitute in Russia, and to hold a market on the 18th inst. Refreshments constituted a portion of the program, and it was decided to meet with Mrs. George Spangenberg in December. At the October meeting with Mrs. Laura Pritchett it was decided to purchase clothing for a little girl in the community, the company partaking of refreshments and hearing a special piano number by Mrs. Pritchett and Miss Bird Duncan.

Death of Aged Woman.

The death of Mrs. J. T. Hauskins at 7:45 p. m. Saturday in her home at Fidelity, Jersey county, removes one of the well known pioneer women of this section, prominently connected in Greene county. Paralysis was the cause of her death. She was a native of Carrollton, born February 8, 1843, and was nearing her 79th birthday. Her brother, George D. Hendrick, is a resident of Carrollton, and is the only surviving member of her father's family. In 1866 she and Warren Baldwin were married, and they resided on the present Clark Baldwin homestead on Apple Creek prairie, southwest of White Hall, until his death in 1874. There were four children by this union, Clark Baldwin, now of Denver, Colo.; Mrs. Robert Morrow, Alton, and Ross, at Home. In 1879 she and James T. Hauskins were married, and the family has since resided at Fidelity, he dying a number of years ago. Chester Hauskins, residing at Springfield, is a son and only child of this union. A grand daughter, Miss Fawcett Hauskins, has always made her home with the deceased.

The remains will be brought to the home of T. A. Kessinger in White Hall Monday, but final arrangements had not been determined in this writing. The burial will be in White Hall cemetery.

The November session of the 4-19 class of the First Baptist Sunday school was held with Mrs. F. N. J. O. Raines has just returned from attending the sessions of the Illinois Baptist state convention at Joliet, and reports that no one during his stay there dared to make reference to the mine horror, except that in a small group he had merely referred to the blackest spot on earth, but was promptly admonished to go no further. Fifteen years ago Rev. Raines made a temperance speech in Havana, which he predicted that this county would go dry. Referring to the matter this time, he told the people in connection with an address: "My prediction has come true, and if there is any intoxication now you people are responsible for it." Rev. Raines was the first executive secretary of this state organization of Baptists, holding the position until recent years. He always attends the sessions, but this year he combined other business in quest of a location in the south part of the state for an exclusive 5c and 10c store.

Mr. and Mrs. J. O. Brooks have returned from Denver, after spending about two months mainly for the benefit of Mrs. Brooks' health. Mr. Brooks took a wheel in a pottery at Denver during the stay, and now he returns to his former wheel at the big shop here.

Mrs. Ellis Odum, one of the life long residents of the Patterson vicinity, seven miles northwest of White Hall, succumbed to a long illness at 7:40 p. m. Friday in her home north of Patterson, and funeral services were held in the Patterson Baptist church at 2 o'clock Sunday, the discourse being delivered by Rev. W. R. Johnson of Winchester, and the burial was in the Rollins cemetery. He maiden name was Langway, and she was born at Patterson 57 years ago. Her marriage with Ellis Odum took place 35 years ago, and she and three children survive, the children being Ivy, wife of John Prindle, Goldie, wife of Guy Wilkerson, and Harry, all residing in the vicinity of Patterson.

The remains of Josiah William Collins, Jr., are enroute to Manchester from Pierre, S. D., for funeral services and burial. His death at 1 o'clock a. m. Sunday came as a shock to the many relatives in this section, as it was not known that he was ill. He was 24 years of age, and graduated from the Northwestern Dental school, Chicago, in the spring of 1921, locating in Pierre, S. D., where he was making a success. Last New Year he was married to a Chicago girl. His mother was formerly Miss Grace Heaton of Manchester, and she died in 1903. The father, J. W. Collins, Sr., went to Mitchell, S. D., ten years ago, and there he has since resided. The deceased is survived aside from the father and a step-mother, by a sister, Miss Florence, who is teaching at Lapeer, Mich., and one brother, David Heaton Collins, now a student in Northwestern Dental school, Chicago.

The remains are expected to arrive at Manchester by Wednesday.

WHAT CHAMPAIGN SAYS ABOUT I. S. D.
News-Gazette Gives High Praise to Local School Showed Great Fighting Spirit.
Champaign liked the playing of Coach Burns' Illinois School for the Deaf team. The Champaign News-Gazette has the following story of the game played there last Friday.
Altho outplayed in every department of the game by Coach Van Liew's well trained Champaign high school crew, the Jacksonville deaf and dumb football team made an excellent impression on the fans Friday afternoon who watched them go down under a 36 to 0 score.
The smooth running, powerful machine representing Champaign drove through the visitors' line and swept around the ends at will. More touchdowns should have been made, but the team, knowing the game was won, did not extend itself.
Visitors' Two Stars.
Jacksonville presented a pair of stars in Massenkoff and Crabbe at half and fullback respectively. But for the yardage those two ripped off the visitors would have been helpless. Massenkoff shot through the left side of the Champaign line all afternoon on a split buck play which the local lads could not seem to fathom. Several times he got away for gains of 20 or 30 yards. Crabbe played a good game on defense and hit the air with eloquent gestures which even Referee Warner and Umpire Williams soon learned to read. The players fought fiercely and played a clean game every minute. They were fighting just as hard when the

final whistle blew as when the game started.
For Champaign the tilt was good training for the big game with Moline next Saturday. Van Liew's backs, Fox, Raymond and Pankau, showed exceptional power and more than average speed for high school talent. Fox drives with more force than the rest, but Raymond was almost as good at driving and ran the ends well. Jimmy Majors started the game at quarter and ran his plays like a veteran. He was badly hurt, however, and may not be in shape for the Moline game next Saturday. His knee, which has been weak, was wrenched in a mix-up on the field. Heyron filled in at quarter.
Champaign Holds.
Aside from the long gains made by Massenkoff, the Champaign held the visitors for downs all afternoon. This Massenkoff person, however, was slippery and had as pretty a side step as one cares to see, on an opposing team. Felix Fox, playing safety, forgot to come in three or four times after Massenkoff had slipped past the Champaign secondary defense and let the fleet half drop off several extra yards each time.
Champaign's touchdowns were divided among five men. Majors scored the first one after Fox and Raymond had carried the ball down the field thru big holes made by the forwards. Fullback Pankau scored the second in the first half, making the scores 13 to 0, the first try for goal being bad. In the second half Raymond, Heyron and Deman carried the ball across and Raymond grabbed himself a place kick. Heyron carried his touchdown across after working the ball half way across the field and earned a five dollar bill from a male parent who remunerates his son at the rate of \$3 2-3 cents per point. A minute later Raymond intercepted a pass and ran 40 yards behind good interference for his touchdown. Deman carried the last one over as the final whistle blew.

Notes from the Big Ten Camps
ILLINOIS
Champaign, Ill., Nov. 6.—The University of Illinois football squad started practice today on its surprise forward pass game which it intends to use against Wisconsin when the two teams meet at Madison on homecoming day next Saturday. Steve Couchie who booted the two drop kicks that defended Northwestern last Saturday again appeared at quarterback and it is likely he will take over the same position against the Badgers.
Coach Zuppke expressed confidence in him as a result of his good work and Rune Clark, the regular quarter probably will not be used for at least three weeks, when Illinois meets Ohio State. Pat Stoik, who was seriously injured during last Saturday's game, appeared on the field today, but his injuries probably will keep him out of the lineup for some time.

NORTHWESTERN
Chicago, Nov. 6.—Coach Thistlethwaite of Northwestern University started this week's training of the Purple with a view to strengthening the back-field positions, which has developed some weakness before engaging Purdue next Saturday. The entire squad was on the field scrimmaging with the freshmen and playing soccer.

TILDEN WILL LOSE PART OF FINGER
PHILADELPHIA Nov. 6.—William T. Tilden II, National tennis champion will lose the end of the middle finger of his right hand as the result of blood poisoning which followed a slight cut from a wire back stop received while he was playing at Bridgeton, N. J., on October 14. The loss is unlikely to handicap his playing.

Dr. William B. Swartley, surgeon at the Germantown hospital where Tilden has been for about two weeks, said today that it was impossible to save the finger down to the first joint but that he hoped the remainder would heal successfully.
The tip and nail of the finger has been removed but the other portion of the first joint is gangrenous. Dr. Swartley said that he did not expect the infection to pass the first joint.

SCHOOLS TO TAKE PART IN PARADE

Owing to the fact that next Saturday, November 11th, is Armistice Day and the schools will in all probability take part in the parade, the general teachers' meeting has been postponed until Saturday, November 18th. A number of high school teachers

are also planning to go to Springfield this Saturday to attend the Jacksonville-Springfield foot ball game.

If the weather is at all threatening on Saturday the school children will not be expected to march in the parade. However, if it is a clear day the school authorities will urge the children to take part in the parade as it is fitting that they should partici-

pate in patriotic celebrations of this kind.

CHALLENGE ASHLAND CROQUET CLUB

J. M. Bunce and Joe Gomes, local croquet sharks, having heard that a croquet club of Ashland has made some sort of reputation for itself by defeating such towns as Petersburg and Concord, are desirous of arranging a meeting with the club, if a suitable time with fair weather conditions can be arranged this fall. They are taking this means to issue a challenge to the Ashlanders.

Bruce, Gomes and Joe Smith, their alternates, have all attained skill enough in the sport to make frequent trips around a large course at a single turn. Their course is the entire length of a lot, and they think nothing of an accurate shot from one end of the court to the other.

The three men are evenly matched in the game, and play it for all it is worth. Gomes has an unfailing mental book-keeping system for remembering "dead" balls—a set of combinations with four players, of 12 possible chances for the balls being "dead" on each other. Bunce is the peer of any player in croquet.

The Jacksonville men play the game to win, and state in positive terms that if they can't trim the Ashland or any other team, the winners will have to swing a merry mallet.

Mrs. Lee Miller of White Hall made a trip to Jacksonville yesterday and spent the day with friends.

Are you among these thousands?

THOUSANDS of people keep on trying, year after year, to build health from food that has been robbed of certain elements required for perfect nutrition.

If your food doesn't contain the mineral properties that go to build up nerve, tooth and bone structure, there is no other means by which you can get these vital elements.

This is one reason why so many well-informed people eat Grape-Nuts

—the food that enriches the blood, and builds sound, healthy bodies.

Grape-Nuts is made from whole wheat flour and malted barley—baked for 20 hours, which develops the natural richness of the grains and makes for ready digestibility.

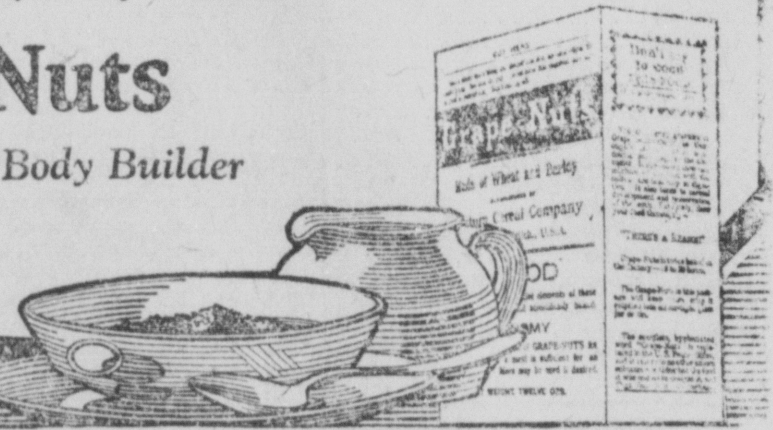

And Grape-Nuts is perfectly delicious—served with milk or cream, or made into an appetizing pudding for dinner.

Get a package of Grape-Nuts from your grocer today, and give the family a help to health.

Be On Guard!

The Anti-Saloon League is attempting to defeat the operation of the ILLINOIS PUBLIC POLICY ACT. A frantic effort is being made by the LEAGUE to stifle an expression of public opinion on the Light Wine and Beer Issue.

Any group of persons that attempts to discourage freedom of thought or the expression of public opinion violates the organic law of our nation.

Demand the right to express your will on the Light Wine and Beer Issue.

Insist upon getting a ballot upon which this question appears.

Co-operate with your fellow citizens towards insuring an honest count of the votes cast.

Report to our State Headquarters any attempt to suppress a vote on this question through the "hiding out" of the ballot upon which the referred question appears.

Remember that all effort to govern by force or through intimidation is a wearisome tale of monotonous failure.

The people are the government. Vote for Light Wines and Beers or against a change in the law—but vote.

If you believe as we do that prohibition is a proved failure, that it has increased taxes, crime, divorce and that it is directly responsible for other serious social evils—if you believe that the nation would fare better through the adoption of a sensible temperance policy, mark your ballot as indicated.
